Short Film Program for Beginners

Learn acting while you prepare for your debut performance in your own short film. This acting program is a combination of training sessions coupled with the chance to act in your own short film.

The short film shall be released & marketed through Creative Bites YouTube channel. Each short film is expected to achieve a minimum of 20,000 views, over social media platforms. This will give you a wider exposure as an actor.

The film shall also be sent for film festivals on a selective basis based on suitability. The film & actors shall have the opportunity to get nominated in 'Best Film' & Best Actor' category in these film festivals.

SYLLABUS SHORT FILM PROGRAM

Workshop on Fundamentals of film acting

- Imagination
- Using real emotions
- Basics of film shoot
- Camera angles, camera movements, type of shots
- Performing short scenes in front of camera

Workshop on characterization

- Methods of character preparation

"

This has been so intensive and valuable to me. Learning film acting is helping me to peek into my own character and better understand others. My concentration & focus has improved a lot. Tanveer (coach) pushes us to perform the best in front of the camera. I am so happy that I am taking this course and can't wait to take more and more of these lessons. I recommend it to everyone.

"

Martin Scholtz

"

I have been with Creative Bites for quite some time now. I have done 1 month acting course for beginners and now doing 3 months film acting course. I really love it and would recommend it to all those who are interested in film acting. You learn many new techniques of film acting & get to discover yourself.
