

Online Film Acting Course

Online Film Acting program is a 3 months - professional certificate course, designed for beginners in film acting. It is for all ages & nationalities. The program teaches you all the basics & advanced film acting techniques through carefully designed 27 online video modules.

Each module contains specially crafted video lecture explaining a specific film acting technique, professional acting tips, daily exercises to practice, sample performances of our students and more

The program is more enriching than a physical film school, and teaches the standard process followed by professional film actors to prepare for a scene or a character.

Candidates will have to submit 3 test performances for our assessment. Actors shall be awarded with 'Certificate in Fundamentals of Film Acting' post successful completion of the course.
